

12 December 2019

(Survey ref:023-001)

Traffic Speed Survey Result - High Street, Heytesbury (30mph Speed Limit)

❖ East of Little London

The results of the survey for the 7-day period from 04/11/2019 to 10/11/2019 are as follows:

- Speeds for a total of 7,451 vehicles in free-flowing traffic in both directions were recorded.
- Total traffic volume during this period was 8,072 vehicles. (This figure may be higher than above due to congestion when 'free-flowing' speeds cannot be recorded.)
- The 85th percentile speed was 36.8mph. This is the speed at or below which 85% of the traffic is travelling and is used nationally as a criterion for Community Speed Watch interventions.
- The mean speed was 30.2mph.

54.2% of recorded vehicles were exceeding the posted speed limit. The mean speed of these vehicles was 35.2mph

For your information the thresholds for interventions, based on the 85th percentile are below:

Speed Limit	No further action	Community Speed Watch	Police Enforcement
20mph	20 mph to 24 mph	24.1 mph to 38.9 mph	Over 39 mph
30mph	30 mph to 35 mph	35.1 mph to 41.9 mph	Over 42 mph
40mph	40 mph to 46 mph	46.1 mph to 49.9 mph	Over 50 mph

Community Speed Watch does not operate in any speed limit above 40mph due to the risks attached to this activity and the health and safety of volunteer teams. Only trained Roads Policing Officers undertake enforcement in 50mph and higher speed limits.

Speed Indicator Devices (SID) used by some Parish and Town Councils cannot be calibrated to operate in 50mph and 60mph limits.

As with every other department, we have to target our limited resources where they will be most effective and therefore we will not accept another survey request at or close to this location within the next 12 months unless there are exceptional circumstances.
